## Package Contents

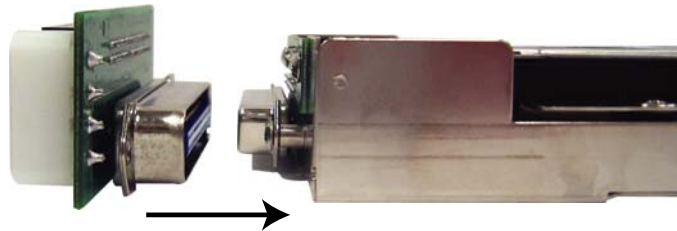

- (1) IDE connector    (2) USB to IDE connector    (3) Power Adaptor    (4) Power cord  
(5) Drive disc    (6) User Guide    (7) SATA cable    (8) SATA to 4 pin power cable

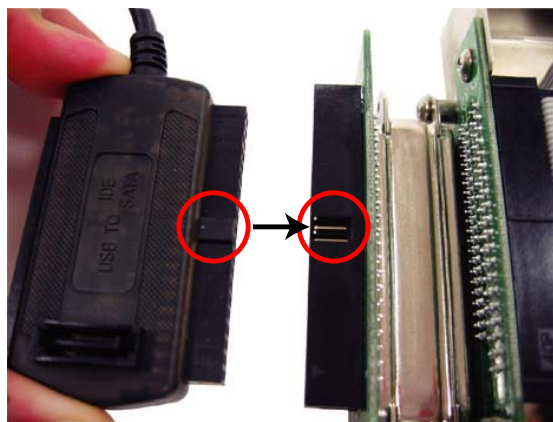

The SATA cable and SATA power cable is an optional accessories for future using.

## Installation

1. Connect IDE connect to EB1304 MOB removable hard disk

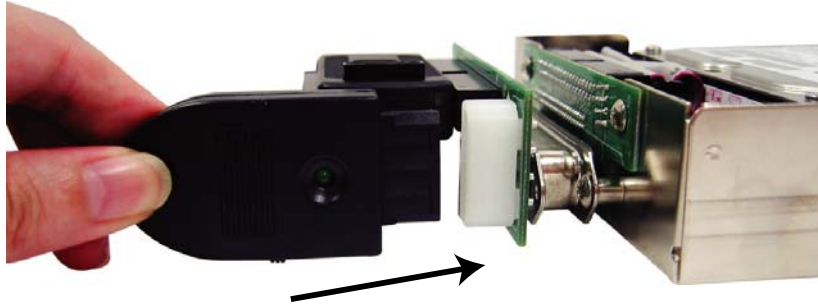

2. Plug USB to IDE connector into IDE connector

*(Please notice the direction)*

3. Plug power connector into power plug of USB to IDE connector

4. Connect the power adapter set.

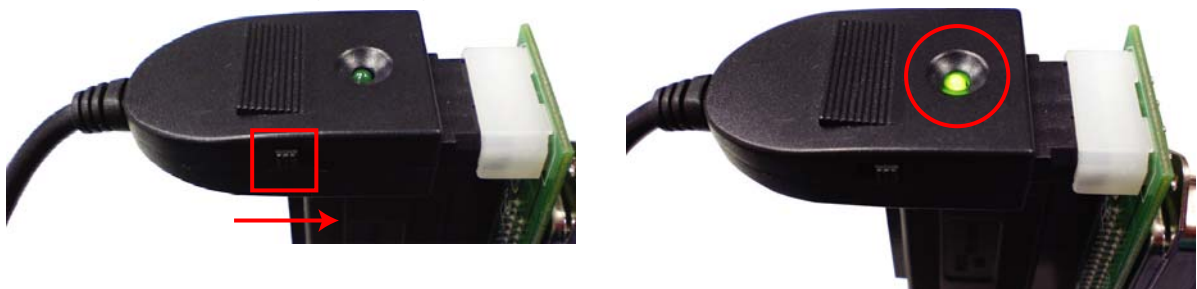

5. Plug the power cord to power outlet(Please make sure the voltage is between 100~240V)

6. Plug the USB cable to PC or Notebook.

7. Turn the power on. The green light indicates the device is power on.

8. When the power is on, wait for PC auto-detection. Driver is needed only in old system such as Windows 98. Please inset the driver disk when your system can't complete the installation process. Windows will auto-install after it detects the driver disk and chooses the most suitable driver for your system. When LED is illuminated, the hard disk is transferring or reading its data now.
